--> Comment Text :  
As one of the closest neighbors to the proposed yucca mountain site, my family and myself have no problem with the proposed site in Nevada. I do think that the community and Nevada in general should receive special considerations and financial compensation. Here in Nye County, especially Amargosa Valley, we are in need of emergency equipment; fire trucks, ambulances, and other equipment. Several of the people I have talked with are in agreement with Yucca Mountain being the best place for a repository. The property will never be used by the public, so from a tax base why not help the economy and help solve the nuclear waste problem at the same time. Thank You for your considerations.

Sincerely;

Arthur Dale and Karene Black
